

## FACTSHEET FOR HOMEOWNERS

### What is the SumeC Phono Solar 15+5 Warranty?

Every SumeC Phono Solar customer enjoys an Engineering Grade 15 Years Product Warranty. For residential installations, an optional 5 years Limited Product Warranty Coverage is now available for the **Twin Plus 330W** and **370W panels** to deliver an incredible **15+5 Year Product Warranty**.

SumeC Phono Solar are confident in offering this additional 5 years cover for Hot Spot and Seal Failure due to the exceptional precision and quality control afforded by their new manufacturing facility.

### What SumeC Phono Solar Panels are eligible for the optional 5 Year Limited Product Warranty Coverage?

The optional 5 years Limited Product Warranty Coverage is available for residential installations for the SumeC Phono Solar Twin Plus Series 330W (Model Number: PS330M1-20/UH) and 370W (Model Number: PS370M4-20/UH).

### Do I (as the homeowner) need to register for the 5 Year Limited Product Warranty Coverage?

As the homeowner, ***you do not need to register for the optional 5 years Limited Product Warranty Coverage*** that you have purchased. Your selected SumeC Phono Solar System Installer will register the serial numbers of each of the panels installed on your roof with SumeC Phono Solar.

### How can I confirm that the optional 5 Year Limited Product Warranty Coverage has been registered?

If you would like to validate that the solar panels that are installed on your roof have been registered for the additional 5 years Limited Product Warranty Coverage, you can contact SumeC Phono Solar via emailing the serial numbers for the panels installed on your roof to [australia@phonosolar.com](mailto:australia@phonosolar.com). Please note there will be a four week period for the registration and validation of the additional warranty.
